CancerSupportCommunityBenjaminCenter.org

Cancer can be a difficult experience. Our support group is here to help improve your quality of life and reduce feelings of anxiety and loneliness. We invite you to attend our weekly support group for Spanish-speaking people with cancer and their families. Come and see how you can benefit from our community and know that you are not alone. Groups are facilitated by a licensed therapist from Cancer Support Community Benjamin Center. You do not have to be a patient of White Memorial Medical Center to participate.

In collaboration with Susan G. Komen Los Angeles County, White Memorial Medical Center and Cancer Support Community Benjamin Center
